# Made with love

*The story of California Bakery began twenty years ago to create a corner of America in Milan. Today it continues with the TEN group to continue to tell the story of the culture of good, traditional American food, prepared every day by hand, following the original recipes using only the finest ingredients, preferably organic.*

*In our workshops, we work in an artisanal manner, taking our time: our bread is baked daily and processed according to rising times, with raw materials of natural origin, without the addition of additives or preservatives. Ours is a patient search, the result of twenty years of work that has brought us to know the best local products and their high quality.*

LIFE IS UNCERTAIN,  
EAT DESSERT FIRST!
